STREETS AND SEWERS, BY CHAIRMAN DAVIS:

Councilman Davis moved the Council take a recess.
So ordered.

The Council subsequently came to order, and upon a call of the roll, the Clerk reported the following present:

Councilmen Beck, Claybrook, Davidson, Davis, Miner, Quarles, Stiglitz, Strong, VanDeventer, and President Satterfield.

Councilman Davis presented and read the following report:

"The Committee on Streets and Sewers has given most careful consideration to the type of material to be used in the resurfacing of sections of East and West Front Street, Park Avenue and Watchung Avenue.

Through the public press, and otherwise, it became apparent that many of our citizens were strongly in favor of asphalt or bituminous concrete as opposed to cement concrete even though the former type might prove to be the more costly to construct.

In order that the public might be given an opportunity to be heard on this subject an informal public hearing was arranged by the Committee and held in

this Chamber on the evening of Thursday, March 22. There can be no doubt from the result of this hearing that there is a strong sentiment prevailing in favor of asphalt.

It will be recalled that bids were received on all asphalt (or bituminous concrete), on all concrete, on concrete within and asphalt without the track area, and on asphalt within and concrete without the track area.

In addition to taking into consideration the wishes of our citizens your Committee has carefully weighed the advantages of each type of construction against their respective costs, and has unanimously arrived at certain conclusions.

The wisdom of laying a 4 to 6 inch slab of concrete over the present base is debatable. Competent engineers differ on this point and your Committee feels that surface with cement concrete, particularly in the face of public demand for asphalt, would be unwise. It is also claimed by some that asphalt is more easily and satisfactorily repaired in the event of failures of the base, or in the event of future openings for service connections.

A satisfactory asphalt construction depends to a considerable extent on the compression obtained by rolling. It is difficult to roll asphalt in a satisfactory manner between trolley tracks because of the tendency of the roller to rest on the rails thus taking the required pressure away from the material. Cement concrete used between rails has the further advantage of offering a surface less conducive to skidding, and it is contended by competent engineers that the working of the tracks themselves is better resisted by concrete. It should be further pointed out that concrete laid in the track area is not mere top surfacing but is actually new pavement 13 inches in thickness between the ties and 7 inches in thickness over the ties. There is no doubt concerning the strength of cement concrete used in this manner.

Your Committee unanimously recommends the use of asphalt on Park Avenue. The Committee also recommends the use of cement concrete within the track areas and asphalt outside of the track areas on East and West Front Street and Watchung Avenue.

Your Committee believes that this method will provide the most satisfactory paving from all points of view."

Councilman Davis reported back for filing, bids for the improvement of East and West Front Streets, under P. W. A. Docket No. 1386; offered the following resolution to accept the

bid of Thomas Gallo, and moved its adoption:

Councilman Davis moved the regular order of business be suspended for the purpose of hearing from those interested on the foregoing, the motion being seconded by Councilman Davidson, and unanimously adopted.

The President then announced that all interested parties would now be given an opportunity to be heard.

The following appeared, and spoke in opposition to the plan to construct a drive-in gasoline station at the corner of Park Avenue and West Seventh Street:

After ample opportunity had been given and no others appearing, the President called upon Judge Newcorn to explain the legal aspects of the case.

Judge Newcorn, Corporated Counsel, responded, and stated the Common Council has no right to prevent the Building

Division, Streets and Sewers Department, from granting permit to convert the show-room to a drive-in station. He stated the whole matter was referred to him by the Acting City Engineer, and he so advised the Acting City Engineer for the reason that the property involved has been used continuously as a gasoline station since before the adoption of the zoning ordinance, and the ordinance specifically provides that the usage of properties for non-conforming purposes prior to the adoption of the ordinance may be continued.

The Chairman suggested to the protestants, that in view of the foregoing, they appeal to the Board of Adjustment.

COMMON COUNCIL

Regular meeting of the Common Council was held this evening in the Council Chambers.

Present: Councilmen Beck, Claybrook, Davidson, Hughes, Miner, Stiglitz, Strong, and President Satterfield.

Absent: Councilmen Davis, Quarles, and VanDeventer.

Minutes of the meeting of June 29, 1934, were read and approved.

Minutes of the meeting of July 2, 1934, were read and approved.

Minutes of the meeting of July 12, 1934, were read and approved.

The President referred to an ordinance entitled

"AN ORDINANCE TO REGULATE THE SALE OF ALCOHOLIC BEVERAGES IN THE CITY OF PLAINFIELD."

which ordinance is scheduled to come before the Common Council for public hearing this evening, and announced that the members of the Council have decided to continue this public hearing until the next regular meeting of the Common Council, which is scheduled to be held Tuesday, September 4, 1934, at 8 o'clock P. M., for the reason that amendments to the ordinance are being considered and the members feel that a full council should be present to act upon such amendments.

Upon request of Samuel Reiss for permission to address the Council, it was unanimously voted that he be heard.

Mr. Reiss accordingly addressed the Council. He stated he appeared on behalf of the Plainfield Liquor Dealers' Association, and that that Association feels that regulatory measures should be adopted as soon as possible for the reason that the present resolution governing the sale of alcoholic beverages in the City of Plainfield is defective, and that there are some dealers who are now operating contrary to said resolution.

Councilman Stiglitz moved the Council take a recess. So ordered.

The Council subsequently came to order, and upon a call of the roll, the Clerk reported the following present: Councilmen Beck, Claybrook, Davidson, Hughes, Miner, Stiglitz, Strong, and President Satterfield.

The President addressed the audience, and stated the members of the Council have again considered the proposed ordinance, and the request of the Liquor Dealers' Association. He stated the Council realizes fully, the shortcomings of the present regulatory resolution, but as the Council does not have a full membership present tonight, and as it is extremely doubtful whether the ordinance could be passed with the members present, it has been decided to hold up further action on the proposed ordinance until the September 4, 1934 meeting.

COMMON COUNCIL

Regular meeting of the Common Council was held this evening in the Council Chambers.

Present: Councilmen Beck, Claybrook, Davidson, Davis, Hughes, Linbarger, Miner, Quarles, Strong, and President Satterfield.

Absent: Councilman Stiglitz.

Minutes of the meeting of December 3, 1934, were read and approved.

Your committee appointed to draft suitable resolutions and memorial to the late George B. Wean, City Clerk, whose death occurred on the eleventh day of December, nineteen hundred and thirty-four, submit the following and move its adoption:

George Brinton Wean was born on January 1st, 1865, at Mt. Pleasant, Hunterdon County, New Jersey, and is survived by his son and two daughters. On January 1st, 1894 the Common Council of the City of Plainfield adopted a resolution engaging the deceased as assistant to the City Clerk. He continued in that capacity until January 1st, 1904, when he was engaged by the City as stenographer to the Common Council and its Committees and served in this position until his resignation on December 31st, 1919. He likewise served the municipality in other capacities during the said interval. In the latter portion of 1924, he was appointed as assistant to the then City Clerk, John J. Carroll, who was ill, and served in that capacity until November 16th, 1925, when he was elected City Clerk and was re-elected annually thereafter for five years until the municipal clerk Tenure Act applied to the office.

During his career, he took a deep and active interest in the civic life of the community, and for many years gave freely of his time and talents for the betterment of his home town. His career in the various positions in which he served, both as stenographer and as public official

SP-17

was one marked by efficiency. His keen foresight and sound judgment made him invaluable. In discharging his duties in the position of City Clerk, by reason of his prior familiarity with the business of the office, he was efficient, competent and zealous, devoting many hours both day and night in the performance of the many arduous tasks connected with the position, and commanded the respect of the public and private citizens who had occasion to transact business with his office.

His personal character was admirable. He was genial and companionable and made many friends. Truth and justice were his standards; his family life was ideal; and his memory will prove an inspiration for the performance of public service to those who follow.

We deplore his death and extend to the members of his family our sincere sympathy in this, their hour of bereavement. He went to sleep and passed away and the City of Plainfield has lost a faithful citizen and efficient servant. We recommend that this memorial be entered in full upon the minutes of the Common Council; and we further recommend that a certified copy of this memorial and resolution be forwarded to the members of his family.

Respectfully submitted,

(Signed) John N. Claybrook
Harvey R. Linbarger

Committee.

Councilman Claybrook then offered the following resolution upon Mr. Wean's death, and moved its adoption:

WHEREAS, the Committee appointed to draft suitable resolutions and memorial to the late George B. Wean, City Clerk, have submitted the accompanying memorial for adoption by this Common Council and have recommended its adoption; therefore,

BE IT RESOLVED, that the memorial be received as the testimonial and tribute of the members of the Common Council to the deceased, and spread in full upon the minutes of the Common Council;

"AN ORDINANCE TO ESTABLISH A BUILDING CODE FOR THE CITY OF PLAINFIELD, REGULATING THE CONSTRUCTION, REPAIR, ALTERATION AND REMOVAL OF BUILDINGS OR OTHER STRUCTURES WITHIN THE LIMITS OF THE CITY, AND PRESCRIBING THE PENALTIES FOR THE VIOLATION THEREOF, (REVISION OF 1933)."

which matter was taken up at the last regular meeting of this Council and then and there ordered continued to this meeting, the motion being seconded by Councilman Davidson, and unanimously adopted.

Councilman Miner moved the Council continue the public hearing on the foregoing ordinance, the motion being seconded by Councilman Beck, and adopted unanimously.

The President thereupon announced that any persons desiring to be heard on the subject will now be given opportunity to speak.

The following appeared:

Alfred M. Korff, who asked what disposition the Council intends to make on the suggestion that Article II, Section 3, of the proposed building code ordinance, be amended.

The Chairman of the Finance Committee stated the Council has considered the recommended changes, as well as the opinion of the Corporation Counsel, and feels that there is nothing in the proposed ordinance as written that is at variance with the State law.

Mr. Korff then presented and read opinion of the Attorney General on the matter, and urged that the Council reconsider its decision.

Mr. Arthur E. Smith stated he believed the proposed ordinance to be very comprehensive, and that the Building Code Committee did a very good job, and that he was, in general, very well satisfied with the proposed ordinance.

Mr. Lauren V. Pohlman, 80 Broad Street, Elizabeth, New Jersey, urged that the Council reconsider Article 8, Section 15, of the proposed building code ordinance, and provide that there be no penalization of builders who use good wood, in preference to those who use poor wood.

Mr. Joseph Haslach, Parkside Road, Plainfield, referred to Article 15, Paragraph 6, which provides that garages must be at least four feet from the building line, and stated he believed two or two and one-half feet would be ample.

The President advised Mr. Haslach that the Council intends to change this to three feet.

Mr. George J. Fisher, Jr. Architect, 102 North Avenue believed the architects in general should be protected by the State law in the matter of filing plans.

Mr. Arthur E. Smith called attention to the provision in the proposed building code ordinance which gives the City Engineer the power to make certain rulings, and suggested this be eliminated.

After ample opportunity had been given for all persons to be heard, Councilman Miner moved the hearing be closed, the motion being seconded by Councilman Hughes, and adopted unanimously.

The Clerk thereupon read the ordinance the second time.

Councilman Miner moved the Council take a recess to consider the suggestions received, the motion being seconded by Councilman Strong, and adopted unanimously.

He stated he felt the ordinance to be as good as can be drawn, but that it is probable that it may be amended from time to time.

Councilman Miner referred to Article II, Section 3, of the proposed building code ordinance, and stated the Council has again considered it in recess, and called upon Judge Newcorn, the Corporation Counsel, to comment on the same.

Judge Newcorn responded, stating the objection raised to this section and the opinion of the Attorney General of the State are two different questions entirely, and that there is no conflict between the provisions in the proposed building code ordinance and the State law.

Councilman Miner then referred to the various suggestions made this evening and called upon Messrs. Ralph T. Haller, and Luther S. Ayer, members of the Building Code Committee, for comments.

Councilman Miner then announced that he would now move certain amendments, in accordance with suggestions and recommendations made, and moved that Article XV "PRIVATE GARAGES," Paragraph 6, be amended by striking out the word "four" and substituting the word "three" so that Paragraph 6 shall read as follows:

Councilman Miner moved to make an addition to ARTICLE XI. "MASONRY CONSTRUCTION," Section 16, "FIRE WALLS AND PARTY WALLS" paragraph 5, by adding another unnumbered paragraph to be a part of paragraph 5, as follows:

"In special cases, such as bus garages, where larger openings than those provided in this paragraph are required, special permission to increase the dimensions of openings may be granted by the Board of Appeals, provided such openings in fire walls or fire partitions shall not exceed 180 square feet in area for each one hundred feet or major portion thereof of such wall length and in addition to the above, not more than two openings,

The duct shall be open at all times and the air supply which it supplies shall be without control. Except as herein provided recirculating systems shall be installed to prevent flammable vapors, flyings or dust entering the intake. The provisions of this paragraph shall not be construed as applying to approved direct fired unit heaters; provided that such unit heaters, shall, when installed in buildings of such occupancy, be located not less than eight feet above the floor. Steam or hot water heated unit heaters when used in recirculating systems, may be located within eight feet of the floor, provided the fan motors be of an enclosed, non-sparking type, in cases where the fans are located or draw air from within four feet of the floor."

REPORTS OR COMMUNICATIONS
FROM THE MAYOR OR OTHER CITY OFFICIALS

The Clerk presented and read the following Annual Message of his honor, the Mayor, Martin B. Stutsman:

"To the Honorable, the Common Council of the City of Plainfield:

It is my desire to bring to your attention matters which I deem of importance in the conduct of our city government during the coming year and to make this message as brief as possible but, at the same time, bring to your attention what I consider matters of the most importance.

TAX REDUCTION

I believe you will agree with me that the matter of first and primary importance is the subject of tax reduction. We have been for several years passing through a universal period of depression from which the country is very slowly, if at all, emerging. Therefore it is of vital importance that the subject of taxation should have our first consideration. On March 31, 1933 seventy-two local governments in our state had defaulted on their bonds, notes and interest, or all three of these, and by July 31 of the same year this number had increased to 120. By the end of 1932 the total tax liens and tax titles was almost equal to the whole tax levy of that year and in the same year 65% only of property taxes were collected. This condition means, that with 35% of property taxes not being paid, those who do pay their taxes must pay the increased burden brought about by these defaults. This condition, fortunately, has not existed in our city and it is my sincere wish that by careful planning and proper business methods it will not exist in Plainfield. It is also important to note that 45¢ of every tax dollar under the pre-

sent conditions must be applied for interest and sinking fund on the capital debt, which condition also exists in most of our municipalities, leaving only twenty cents out of the tax dollar for current expenditures, the remainder for the payment of the fixed state and county tax. Our city, however, at the present time, is carrying a large burden by way of outstanding bonds and it is my recommendation that no further bonds be issued except where such bonds can be made self-liquidating.

I wish also to bring to your attention that, during the coming year, the City of Plainfield will be called upon to increase its appropriation for emergency relief in the sum of about \$24,000.00 plus a considerable sum for the retirement of obligations hereto fore issued, and that approximately \$825,000.00 will be lost by way of reduced assessed valuations. With this situation facing us it is still more important that our local budget be "cut to the bone" and must be materially reduced over the budget of 1934.

The people of Plainfield, during the last election, unequivocally and unconditionally placed their stamp of approval on the policy of tax reduction and none of us will keep faith with those who placed us in office unless we give our citizens some relief by way of a reduced tax bill.

COLLECTION OF TAXES

The question of payment and collection of taxes is also an important item at the present time. So long as the general property tax continues as the major source of municipal revenue, property owners will continue to bear a disproportionate share of the financial burden of government. A decline of property values is tending to increase this load at the present time. Thus, it is especially important that the property owners' burden be lightened as much as possible.

It is, of course, misleading to consider valuation figures except in relation to tax rates. A declining assessment accompanied by a rising tax rate carries no relief for the tax payer.

A large majority of our cities, at the present time, are confronted with a serious problem in the increase of delinquent and unpaid taxes. It is, therefore, important that no condition be created to further increase this delinquency. This situation has been the cause of the financial ruin of some of the largest cities in the country.

Our city's financial condition is, and always has been, a very enviable one, and it is my desire, and I am sure it is yours also, that our policy of safe financing be continued. It is therefore necessary from this standpoint that a lower tax rate be fixed for 1935 than

that of 1934 so that our tax delinquencies will not increase. To help bring this about the public must make up its mind to favor the abandonment or curtailment of many services which they now enjoy. It is in the method of doing business that economies must come. The immediate problem, however, is that of adjusting expenditures to declining revenue.

In my message to the Council of 1931 I recommended that immediate steps be taken to perfect tax certificates held by the City of Plaifield thereby investing the City with complete title to the properties represented in such certificates. This recommendation has been carried out and the city is now the owner of several properties thus acquired. I therefore further recommend that the properties so acquired and now owned by the city be immediately sold so that we may get the benefit of the purchase price obtained, which would help to reduce the tax rate. Our city is also the owner of a large tract of land surrounding the Industrial Home, the major portion of which property should be sold as soon as market conditions warrant the same.

Property for development in our city is very limited, therefore a sale of these properties would not only give the city much revenue from the purchase price obtained, but would also open up for development property upon which tax ratables could be constructed, thereby giving us tax relief in that regard also.

UNEMPLOYMENT

The present condition of unemployment unfortunately has existed for some time during the past years, the length of its continuance is something which none of us can foresee. It will, therefore, be necessary to so lay out and plan our expenditures during the coming year as to give the greatest relief possible to the already overburdened tax payers and at the same time relieve the misery and suffering of some of our unfortunate citizens.

The relief of our fellow man is one of our first obligations and must be met heroically, and at the same time conserve our financial integrity. The actual situation for cities in general is much less precarious than pictured by the prophets of disaster, but it reveals a need for careful conservation of bond margins which precludes any orgy of public construction, by cities, to stem the flood of unemployment.

SURPLUS REVENUE

In each year certain budget appropriations are made for the conduct of the various city departments.

In most cases this appropriation is larger than the amount actually expended during the year and it has been the custom, nearing the close of the year, for the respective councilmanic committees to expend, as nearly as possible, their total respective budget appropriation. I believe this policy should be discontinued and that the surplus amounts of such appropriations should be turned over as surplus revenue to be applied in reducing the appropriations for the coming year.

STOP SIGNS

It is my opinion, and has been for several years, that there are too many stop signs in our city and believe that the elimination of at least one half of the same would relieve some of the traffic confusion which now occurs, substituting caution signs in their place. Many of the present "stop signs" could be changed to "caution" signs at practically little or no expense especially in view of the fact that many of our stop signs are in a dilapidated condition.

ZONING

I recommend that our zoning law be changed in some regard; permitting the owners of some very old and large houses to change these buildings into apartment houses as, standing in their present condition, they are of little or no value to the owners; the city by this change would benefit by being able to collect a larger tax than is now paid on these properties, and afford the owners a better opportunity to meet their tax obligations.

SALARIES

There should be an adjustment of all the salaries of the city, as in many cases they are not equitably proportioned. I favor the restoration of automatic increases due to the fact that our employees who have lost the automatic increases have had their salaries reduced to a much larger extent than the employees who have had cuts in salaries after they have attained the automatic increases.

UTILITIES

I recommend the appointment of a committee to diligently prosecute the subject of obtaining a reduction in the rates charged by the Public Utility Corporations; also that some measures be taken to have the holders of the city bonds agree to the reduction in the interest rates of said bonds. This plan has been adopted in other municipalities with very beneficial results to the tax payers. I also recommend the appointment of a committee to take up with the Federal authorities the question of the establishment of a municipally owned water works, providing the project could be financed with

P. W. A. money, and that the bonds issued in connection with the same would be self-liquidating, from the profits accruing from the operation of the plant. This project would result in reduced water charges as well as providing the money for the repayment of the capital investment.

TRAFFIC FINES

Under the state law practically all of the fines collected for the violation of traffic regulations are turned into the treasury of either the county or state.

It does not seem to me this is a fair proposition, as I believe all or a large portion of these fines should be paid into our city treasury. Our city pays the bills for the maintenance of the police department, police court and the various other activities necessary to the regulation and collection of fines for various traffic violations. While I appreciate that your Honorable Body has legally nothing to say in this regard I feel that possibly if a resolution was passed directed to our state Senator and Assemblymen requesting a change in the state law it might have some beneficial effect and possibly lead to concerted action on part of the other municipalities in our state along the same lines.

CITY PURCHASES

I feel that our merchants and business men, who pay the majority of our taxes, should be patronized as much as possible and that wherever feasible purchases of supplies by the city should be made from local merchants. And when experts are employed from time to time they should be chosen from the residents of our city rather than going out of town for said expert opinions, as I feel that the City of Plainfield has among its own residents the highest type of experts in any line that may be necessary.

LIQUOR LICENSES

The granting and supervision of liquor licenses should be governed in an equitable manner both for the protection of the citizens of Plainfield and the legalized liquor dealers and that every effort should be used through our Police Department for the apprehension and punishment of all so called "bootleggers" and others who violate the law.

RECREATION

Our recreation activities have been handled in a very efficient manner.

It is my desire that these activities be increased as I am convinced that the good work done through

the Recreation Commission and its director have done much to eliminate crime during our present economic conditions as well as build sound and healthy bodies for our citizens.

POLICE DEPARTMENT

During the past year there has been but few crimes of a serious nature committed in our city, and most of those committing offences have been apprehended by our police department, which department has been handled in an efficient manner. It is my desire that each and every member of the department will realize the responsibility placed upon him to guard and protect the welfare of our people.

FIRE DEPARTMENT

Plainfield has one of the most efficient and complete fire departments in the state which has been the reason for the very few serious fires occurring in our city. It is my desire that the present efficiency of the department continue.

In conclusion, it is my sincere wish that we may work together in a spirit of fine cooperation, so that we may render the best possible service to our city. Wishing you one and all a very happy and prosperous New Year, I remain
